WORK EXPERIENCE

UI/UX Designer Aide – ASU Learning Engineering Institute

Jun 2026 – Present

- Designing AI-powered learning tools for students and teachers.

Product Design Intern – Oxy Design Agency (Remote)

Feb 2026 – Present

- Designed Friday Harbor's (AI mortgage underwriting platform) proposed sitemap, **approved without revision** and now anchoring the rebuild.
- Ran heuristic evaluations and competitive analyses that shaped redesigns for IP Fabric and Friday Harbor.
- Drove visual direction for Oxy Aero, a luxury aviation studio, from a 28-point UX audit to three hero concepts, **one of which the creative director selected as the final.**

UI/UX Design Intern – Nielsen (Remote)

Jun 2025 – Sep 2025

- Designed a three-part upsell flow that surfaced the paid Planning feature's value at the moment of intent, without breaking the user's workflow.
- Restructured raw backend data into a Data Overlap column and calendar modal, letting media buyers verify coverage before running a report blind.
- Prototyped flows in Figma Make specifying every component state and edge case, **clearing two rounds of stakeholder review** before handoff.

Design Intern – Sinopia Digital Marketing Agency (Remote)

Mar 2024 – Oct 2024

- Designed and shipped responsive client sites, including the Digestive Institute of Arizona, driving a **2.14x increase** in site traffic and **1.9x increase** in patient leads.
- Built Sinopia's brand identity, from logo to responsive site, and shipped marketing assets across clients.

PROJECTS

Smile Donor – Nonprofit Website Redesign (ASU Barrett Honors Thesis)

Mar 2026 – Present

- Leading an end-to-end UX redesign of a nonprofit donation site as my honors thesis.
- Ran four interviews, competitor analysis, and a heuristic evaluation, with **3 out of 4 donors** flagging excess steps and limited payment options.
- Diagnosed the site's strongest trust signals as buried in body text and absent from the donation flow, pinpointing where to surface them in the redesign.
- Translated research into a proposed sitemap and prioritized donation-flow fixes; redesign and usability testing to follow.

Find My Size – End-to-End UX Project (ASU GIT 340)

Jan – Apr 2026

- Designed a sizing-confidence tool for online shoppers end-to-end, from user interviews to a tested Figma Make prototype.
- Embedded the tool directly in the product page, not a separate app, to reach shoppers at the moment they hesitate.
- Ran usability testing that lifted sizing confidence to **4–5 out of 5**, and showed shoppers trusted the tool more when it visibly used their own measurements.

LEADERSHIP DEVELOPMENT

Teen Mental Health Initiative (TMHI) – President (Awareness Committee & Club)

2021 – 2024

- Founded the school club and served as President of the awareness committee, running meetings and organizing fundraisers for local mental health organizations.
- Built the organization's visual identity, designing its logo and weekly Instagram posts to drive awareness.

SKILLS & ACTIVITIES

Tools: Figma, Figma Make, Adobe Illustrator & Photoshop, Canva, Claude Code, Claude Design

Technical: GitHub, VS Code, HTML & CSS

Skills: UI/UX Design, User Research, Wireframing, Prototyping, Usability Testing, Branding, Traditional Art & Illustration

Relevant Coursework: Information Design and Usability (GIT 340), Human Factors in Design (IND 344), Web Development with JavaScript & APIs (SAO 394), Digital Illustration in Publishing (GIT 230), Communication/Interaction Design Theory (GRA 225).

EDUCATION

B.A. Media Arts and Sciences (Graphic Information Technology)

2023 – 2027

Arizona State University, Barrett Honors College (Tempe, AZ)

Dean’s List (GPA: 4.04/4.00), Presidential Volunteer Service Award Gold
